WAYFINDER

V7000

The “Auto” Auto Compass

The Wayfinder V7000 is one very smart compass. Patented sensor technology gives this instrument the ability to assess its surrounding conditions. Precise information on orientation and altitude is given clearly and accurately. Interior and exterior temperature, as well as potential changes in the weather are provided. "Auto-Integrate" circuitry, patented and developed by PNI, has created an instrument capable of knowing when to turn itself on and off, or even when the backlight feature is needed. Since it's so smart, the V7000 can be used virtually hands-free and the user can be assured they have one very intelligent tool for their driving needs.

3 Mode Compass
Shows direction with compass rose, 8 cardinal points, and 1° numeric digits

Weather Forecast
Predicts sun, cloud, or rain, based on barometric pressure

Thermometer
Inside and outside, choice of F° or C°

Altimeter
Elevation up to 19,990 feet or 6000 meters

Battery Or 12-Volt Adapter
Operates on long-life lithium battery or power cord (both included).

Two-Year Extended Warranty

Barometer
Measures barometric pressure and up/down trends

“Auto Integrate”
Automatically turns on and off

Automatic Backlight
Turns on at night

Bright Daylight Display
Crisp holographic LCD

Bearing Point
Stores heading in memory

Declination
Set compass to True or Magnetic North

Specifications
* 4" x 2.5" x 1.25"
* 4.6 oz.

Developed by America's premier sensor technology company.
